CHANGES TO AIP AERONAUTICAL CHARTS EFFECTIVE 12 JUNE 2025

1. INTRODUCTION

1.1 This AIC cancels and replaces AIC H62/24 on 12 June 2025.

1.2 This AIC identifies significant changes incorporated in AIP Charts that become effective on 12 June 2025. Amendments are listed in sufficient detail to allow easy identification on the charts.

1.3 The Latitude and Longitude (LAT/LONG) in this document is shown to an accuracy defined by the source information. If the LAT/LONG is shown as 1824S 15122E the position has been defined to the nearest minute; if the LAT/LONG is shown as 1824.2S 15122.4E the position has been defined to the nearest tenth of a minute. If the LAT/LONG is shown as 182412S 1512224E the position has been defined to the nearest second.

1.4 While every effort is made by Airservices to ensure the accuracy of international data contained in Airservices' charts and publications, international data is based on, or contains, information provided from regional governments or third party sources over which Airservices has no control, and which may not always be completely up to date.

1.5 Changes of a purely editorial nature are not listed, and changes which are the subject of NOTAM or SUP may not be included. Refer to current NOTAM and SUP for latest operational information.

1.6 Obstacle values may differ from NOTAM or SUP information due to validation during incorporation into the vertical obstruction database. Not all obstacles may appear on charts due to cartographic considerations.

1.7 Advice of any incorrect information on the charts or suggestions regarding AIP Charts should be forwarded to AIS via email: docs.amend@airservicesaustralia.com

2. COPYRIGHT

2.1 All charts are subject to the copyright conditions detailed on each chart.

3. SPECIFIC CHANGES

3.1 This update to the AIC presents changes to chart information by chart series, rather than by specific changes.

3.2 In the below section, the following decode applies:

ERCH	En Route Chart High
H1	High Chart, followed by number, e.g. 1, 2, 3 etc.
ERCL	En Route Chart Low
L1	Low Chart, followed by number, e.g. 1, 2, 3 etc.
TAC	Terminal Area Chart
VNC	Visual Navigation Chart
VTC	Visual Terminal Chart
PCA	Planning Chart Australia
