

A photograph of a white twin-engine propeller aircraft in flight, viewed from a low angle, set against a clear blue sky. The image is partially obscured by a blue gradient overlay at the bottom.

AIRCRAFT LANDING AREAS (ALA)

THERE ARE OVER 2000 ALA WITH A Y-CODE RECORDED IN THE AIRSERVICES
AERONAUTICAL DATABASE AND PUBLISHED ON CHARTS.

VERIFIED AND UNVERIFIED ALA—WHAT'S THE DIFFERENCE?

VERIFIED

AIRSERVICES HAVE BEEN NOTIFIED OF A REPRESENTATIVE WHO IS RESPONSIBLE FOR THE LOCATION AND ASSOCIATED INFORMATION.

UNVERIFIED

AIRSERVICES HAVE NOT BEEN ADVISED OF A REPRESENTATIVE FOR THE LOCATION. STATUS AND SERVICEABILITY ARE UNKNOWN.

**CLASSIFICATION OF VERIFIED DOES NOT INDICATE THAT AN ALA IS SERVICEABLE. PILOT IN COMMAND RESPONSIBILITIES PRIOR TO OPERATING TO ALA/HLS OUTLINED IN ERSa REMAIN APPLICABLE.*

IF YOU HAVE ANY INFORMATION REGARDING AN ALA, INCLUDING THE CONTACT DETAILS FOR A REPRESENTATIVE OF AN UNVERIFIED ALA, CONTACT AERONAUTICAL INFORMATION SERVICES AT:
docs.amend@airservicesaustralia.com
