NOISE ABATEMENT PROCEDURES HOBART

1. PREFERRED FLIGHT PATHS

The following apply during Hobart Tower hours of operation.

- 1. RNP1 capable IFR aircraft arriving at Hobart can expect processing via published STAR.
- 2. RNP1 capable IFR aircraft departing Hobart can expect processing via published SID.
- 3. Hobart VOR approach is part of the Backup Navigation Network (BNN) and may only be used:
 - (i) For approved flight training for aircraft below 5700KG.
 - (ii) For operational reasons when no alternative approach exists.

Note: Approaches for recency not permitted.
