

Removal of AvFax Products from AIS-MET

1. Introduction

1.1 As previously advised in Changes and Notices and in Location Briefing from the AIS-MET link, AvFax products will no longer be accessible through the AIS-MET system. The cessation date is scheduled for March 2008. These changes are the result of enhancements to NAIPS Briefing system capabilities.

1.2 Access to AvFax products will be available from NAIPS.

2. NAIPS Registration and AvFax Enquiries

2.1 Access to AvFax via NAIPS requires the user to be registered with NAIPS and have an AvFax account number. For help with NAIPS Registration or AvFax account enquiries, contact the Airservices Australia Help Desk on 1800 801 960.

2.2 To check that your AvFax account and Product/Custom Codes are available in NAIPS, contact the AvFax help desk on 07 3866 3573 and quote your AvFax account number.

2.3 To obtain a list of the MET, NOTAM and chart products which will be supplied for an AvFax product, or to obtain details of your custom codes contact the Briefing Office on 1800 805 150 (Telstra PhoneAway Card required) or +61 7 3866 3517.

Comments on the Internet Briefing Service are welcome and can be sent via E-Mail to briefing.manager@airservicesaustralia.com or posted to:
