AMENDMENTS TO AIP BOOK GEN 3.4

1. INTRODUCTION

- 1.1 This AIP SUP amends the AIP Book, GEN 3.4 Section 7.
- 1.2 The opening of Sydney/Nancy-Bird Walton Aerodrome (YSWS) in Western Sydney and associated FIR boundary changes necessitates a revision of datalink login procedures in AIP and addition of YSWS into the list of qualifying locations.

2. AMENDMENTS TO AIP BOOK, GEN 3.4

- 2.1 Amend the following text:

7. ATS DATA LINK SERVICES

.....

7.4 Logon Procedures

7.4.4. Aircraft departing from airports either within Australia (YBBB or YMMM FIR) or the AGGG and ANAU FIRs, requesting data link services, should logon as described below:

- a) On the ground using the logon address for the FIR that the departure airport is located within; or
- b) Airborne at any time after passing 10,000FT, using the logon address for the FIR in which the aircraft is currently operating, with the following exceptions:
 - i. Aircraft approaching an FIR boundary should logon to the next ATS unit, rather than the current ATS unit; and

- ii. Airborne aircraft departing YSSY, YSWS, YSBK, or YSRI should logon in accordance with the following table:

Departure track	Logon address
Airborne aircraft departing on tracks south of a line from YSSY- OPTIC through west to YSSY-YSWS-BENBU-SPLIZ (inclusive).	YMMM
Airborne aircraft departing on tracks north of a line from YSSY-YSWS-BENBU-SPLIZ through east to SY-OPTIC (inclusive).	YBBB

Note: The above table applies to logons from airborne aircraft only. Flight crews who logon whilst on the ground at YSSY, YSWS, YSBK, or YSRI must logon to YMMM.

.....

7.5 Position Reporting Requirements

7.5.1 A CPDLC downlink is required to enable the controlling ATS unit to ensure that it is CPDLC data authority for the aircraft. To facilitate this, flight crews must send a single CPDLC position report either:

- a) whenever a new CPDLC Connection is established; or
- b) on entering the YMMM, YBBB, AGGG or ANAU FIR from another ATS unit; or
- c) crossing the YMMM/YBBB FIR boundary, except that aircraft inbound to land at YSSY, YSWS, YSBK, or YSRI from the north or east are not required to downlink a CPDLC position report at the FIR boundary.

.....

APPENDIX 1

AUSTRALIAN AFTN CIRCUITRY

NATIONAL COMMUNICATIONS CENTRE MELBOURNE- YMMLYFYX

ATS Units in Australia to include YSWS and YBNA, Refer to Appendix 1 in this SUP.

3. CANCELLATION

- 3.1 This SUP will be cancelled when it is incorporated into AIP, expected 03 September 2026.

4. DISTRIBUTION

- 4.1 Airservices Australia website only.

Appendix

1. AUSTRALIAN AFTN CIRCUITRY, NATIONAL COMMUNICATIONS CENTRE MELBOURNE- YMMLYFYX
