

7 SEP 2023

- 5.1.2 A maximum of 8 international aircraft (refer definitions at 5.8) landings during curfew shoulder periods (2300-midnight and 0500-0600) may be permitted per week. Prior approval through the Department of Infrastructure, Transport, Regional Development, Communications and the Arts (DITRDCA) is required for operations in this category; and
- 5.1.3 A maximum of 25 landings and 15 take-offs each week by low noise heavy freight aircraft (refer 5.8) may be premitted. Prior approval through DITRDCA is required; and
- 5.1.4 Propeller driven aircraft with a maximum take-off weight (MTOW) of 34,000kg or less, that meet specified ICAO noise standards; and
- 5.1.5 Jets with a MTOW of 34,000kg or less which meet International Civil Aviation Organization Chapter 4 or Chapter 14 noise standards as specified in *Annex 16, Volume I*.
