

RAAF EDINBURGH Airspace Incursion Hotspots

R233A - Gawler Aerodrome (YGAW)
Civil acft operating at YGAW may incur EDN CTR on upwind or final for RWY13/31 due proximity of boundary. Aircraft on YPED RWY18 ILS or TACAN may be affected.

Parafield Aerodrome (YPPF) – Class D
Regular incursions by civil acft occur on EDN CTR boundary due limited visual cues, pilots unfamiliar with boundary or congested YPPF circuit pattern. EDN acft on late base/final RWY36 or upwind RWY18 will conflict. Boundary reduced to 2.7nm south of RWY18/36.

BOLIVAR/ST KILDA OCTA
Civil acft transit to/from YPPF and training areas D220/D280, outbound at A010 and inbound at A015. Pilots unfamiliar with boundary transit through corner of EDN CTR.
