

Airservices Certified Maintainer Assessment for Romteck RM3118 dual SIM Alarm Signalling Equipment (ASE)

Technical Instruction

TI-0223

Version 3

Effective 13 November 2020

Prepared: Melissa Buick
Engineering Specialist

Authorised: Craig Sutherland
System Technical Authority, FCCMS

Change summary

Version	Date	Change description
3	13 November 2020	Updated TI-0157 links for external Airservices website.
2	31 August	Added additional checklist for non-maintainers that require an ASE Touch Key. Other minor changes.
1	23 April 2018	Initial release.

This document was created using Technical Instruction Template C-TEMP0168 Version 4.

1 Purpose

This checklist prescribes the requirements for the assessment, recording and validation of competencies of personnel who are authorised to install, remove and restore Alarm Signalling Equipment (ASE) connected to the Airservices Romteck system.

This certification only applies to working with the Alarm Signalling Equipment (ASE). It does not cover the Fire Indicator Panel (FIP) or the Emergency Warning and Intercommunication System (EWIS) that the ASE connects to.

2 Scope

This applies to Airservices employees and external personnel involved in the maintenance and support of Alarm Signalling Equipment (ASE) equipment. Refer to Section 3 ASE Certification Assessment.

This also applies to external personnel involved in the maintenance and support of Fire Indicator Panel (FIP) equipment who require an ASE Touch Key, for example to perform monthly FIP testing, but who will not be involved in the maintenance and support of Alarm Signalling Equipment (ASE) equipment. Refer to Section 4 Application for ASE Touch Key.

The validity period for this Certification is 5 years. Re-apply every 5 years.

3 ASE Certification Assessment

Postal address (not PO): _____

<p>Reviewed, understood and accept TI-0157 Section 4 key-holder Responsibilities:</p> <ul style="list-style-type: none"> • Understand that while a monitored automatic alarm system is not fully operational, it is vital to put alternative fire safety procedures in place to ensure an appropriate level of fire safety during this period. • Understand Airservices minimal isolation policy 	<p>Yes/No</p>
<p>Misuse of a Key is a serious matter. Keys are granted on a non-transferable basis. You will notify Airservices or return the key if you change contact details or no longer want to be a key-holder. You will notify Airservices if you lose or misplace your key. Firemon records an audit trail of when a key is used to access the ASE. It is an offence in most states and territories to damage or interfere with a fire indicator panel or other apparatus that transmits the signal to the fire services (monitored automatic alarm system) without reasonable excuse.</p>	<p>Yes/No</p>
