

Working together to reduce risk.

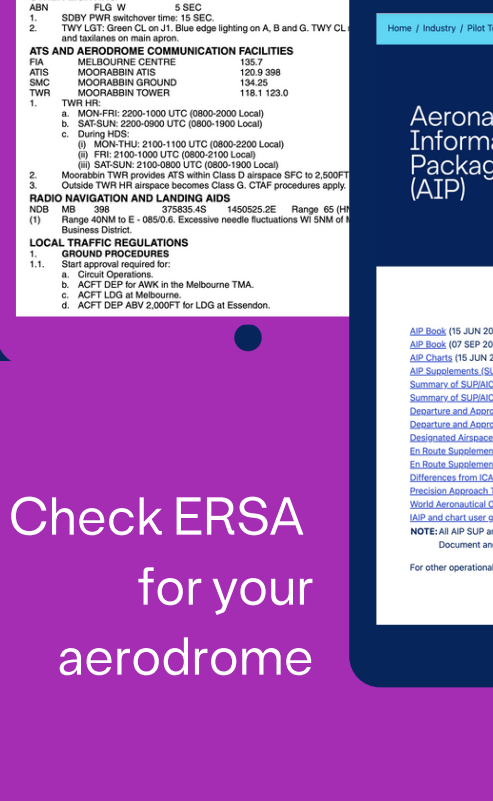

Talking with the tower

Runway safety risk remains one of the most serious threats to aviation safety.

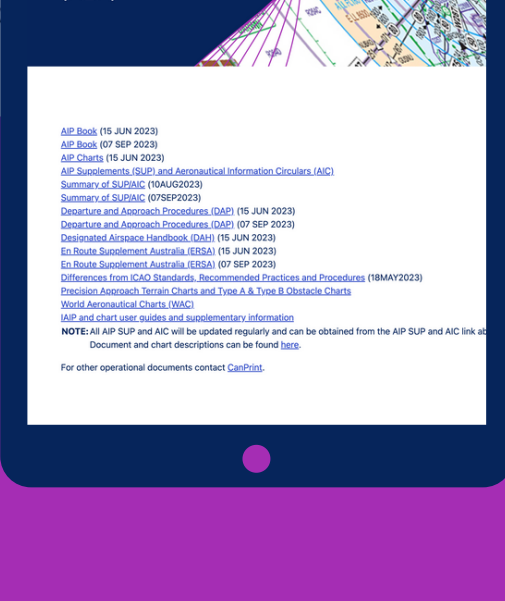

The role of the tower

Are you on the correct frequency?

Ground, tower and different runways can have different frequencies at different aerodromes.

Check ERSA for your aerodrome

Tips from the tower

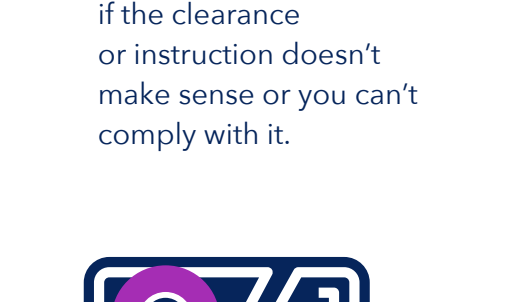

Working together

When in doubt, ask.

Advise intentions on first contact with ground.

If you're going somewhere you're not familiar with, give the tower a ring first.

Let us know if you're not familiar with the local area and procedures.

Let us know if the clearance or instruction doesn't make sense or you can't comply with it.

ABC

When in doubt, ask in plain language.

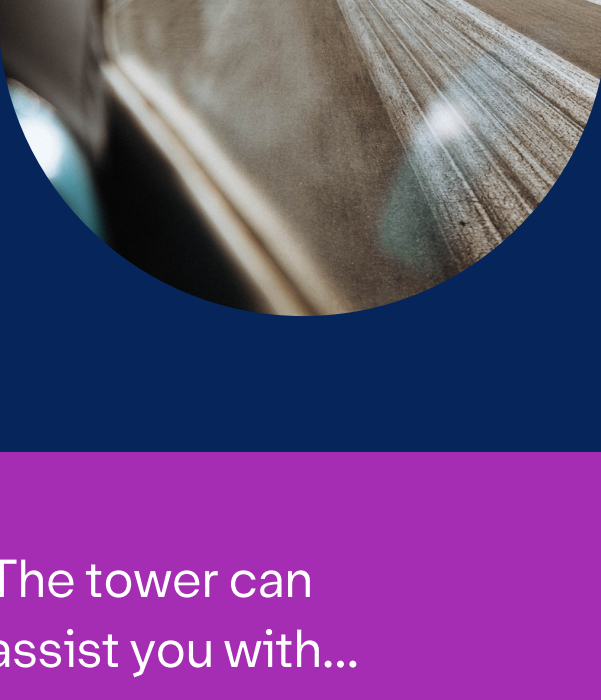

Have your VTC handy.

Remember to...

know what to read back

avoid stepping on transmissions

keep your transmissions concise

The tower can assist you with...

weather information

technical advice

navigation advice

local knowledge

medical assistance

Equip yourself for a safe flight

Equip yourself for a safe flight with knowledge of the current issues contributing to potential risks in your airspace. Learn current threats, errors, and countermeasures, as well as lessons learned from past occurrences.
